

Carrbridge Capercaillie Group

Meeting notes: 18 August 2020

1. It was agreed that the Carrbridge Nature noticeboard should be updated to advertise the Capercaillie Advisory Assistant role (currently being recruited as part of the Cairngorms Capercaillie Project) and to promote the capercaillie colouring competition for 9-12 year olds, running as part of Carve Carrbridge.
2. The group discussed the capercaillie brood survey results, which have been shared with the community via the August edition of Carrbridge Capercaillie News.
3. It was agreed that the capercaillie brood survey results should be discussed in more detail as the Carrbridge Capercaillie Conservation Strategy is developed over the coming months.
